We can stand down on this for now, folks, thanks. I talked to the US attorney this morning and he was only looking for some basic background technical information and he is getting that information from Greg Sayles, the person he originally approached on this. No need for any general conference call.

He will let me know if there's more that he needs and I'll help him find the right folks to talk to.

Subject: call with U.S. attorney's office about w va. spill

Hey folks. We'd be happy to reach out the U.S. Attorney's office and propose a phone call and identify who from there would participate. Would propose that happening next week.

In terms of actually scheduling, I'm a bit challenged in that department in my office. Would it be possible for another office to have the lead on that?

Thanks all. Enjoying the snow here.

R3 Water Protection Div folks would be happy to get on a call to help address the questions from the US Attorneys office, when we are done with the latest storm. . Suggest having an OECA and OGC and OW rep on the line as well.

Steve N. Would you be willing to take the lead on confirming the call logistics and Vicky Binetti and Bill Arguto here would be our subject experts. Thanks.

Subject: RE: WV Chemical Spill

Likewise, I passed it on to OECA's folk but also heard back that Region 3 has been most involved. If need be, I can probe a little more, but am interested in Region 3's thoughts.

Steve, i don't have much to add. I passed the request along to our folks and got nothing back. R3 has been very involved. I am copying Jon because he or someone in R3 might be most appropriate to respond.

Peter G's office has been most involved within OW.

Thanks

The attachment is a letter to me from an attorney at DOJ in West Virginia asking for a telephone call with me so he can ask me about things related to the WV spill like monitoring source water, what can be done to make the system "clean," etc. How do you advise me to proceed? I am

happy to call either of you on this.

Thanks

Greg

Director Sayles-

I emailed you yesterday, but received a message that the email was delayed. I hope it went through, but in the event it did not, I'm forwarding this letter by email, fax, and U.S. Mail (I thought about sending by Pony Express too). When this makes it to you, please give me a call. Thanks so much.
